Fifth Annual Report Card Atlantic Canadian High Schools

This is the fifth annual report card on Atlantic Canadian high schools (RC5). It is based on a three-year average including 2002/03, 2003/04, and 2004/05.

The grades reported here are for the schools themselves and are not simply an average of grades received by the students at that school. The final grade and rank for the fourth annual report card (RC4) is included for reference.

There is a great deal of information presented here. We encourage you to dig below the overall rank and grade. Even the highest ranked schools can improve and those at the bottom of the list can take pride in their strengths.

The Research Team

Principal researcher Rick Audas is an Assistant Professor in the Division of Community Health, Faculty of Medicine, Memorial University of Newfoundland. Coauthor Charles Cirtwill is President (Acting) at AIMS, as well as the head of the Institute's Education and School Reform Project. Coauthor Bobby O'Keefe is a Senior Policy Analyst at AIMS.

How to Read the AIMS Report Card

The AIMS Report Card grades schools based on their educational outcomes in two categories - Achievement and Engagement. Academic Achievement is an indicator of overall academic success using school marks in math, science, language arts, and humanities courses, provincial exams in the corresponding courses, and achievement in post-secondary studies or training. Academic Engagement is an indicator of the level of student engagement in school, and is determined using attendance rates, moving-on rates, enrollment in post-secondary preparatory courses in math and language arts, and participation in post-secondary education.

However, it is understood that educational outcomes can be affected by various factors outside a school's influence. "Inputs" for which we have been able to secure data include enrollment, pupil teacher ratio, teacher training, and socio-economic status. The AIMS Report Card uses this input data to level the playing field for schools in different settings. So the Final Grade for each school is calculated by averaging the Overall Absolute grade and the Overall grade In Context.

The Absolute grade assesses a school's performance relative to the rest of the schools in the province. The grade In Context measures how well a school performs considering the school's "Inputs" - the variables that are generally beyond the school's control. Contextual measures are assessed by predicting how a school should perform based on its Input variables and comparing its actual results against the predicted values for the school.

Schools for which we were not able to secure a complete data set are not given a final overall grade and are listed alphabetically as unranked. All available results, as well as table notes that provide further explanation on the measurements and data, will be posted online at www.aims.ca.

INPUTS

High School Enrolment: the number of students enrolled in high school grades.

Pupil Teacher Ratio: the ratio of all students to full-time equivalent teaching staff.

Average Teacher Certification: an indicator of the average level of teaching qualifications and experience possessed by the teaching staff in a school.

Socio-Economic Status: the socio-economic status uses a number of measures to capture the social and economic conditions of a school's student population.

Feeder achievement: an indicator of the performance of junior high or middle school students who go on to attend each high school.

OUTCOMES

Academic Achievement

School marks: the average teacher-assigned grades for general, academic and advanced level courses in math, science, language arts and humanities.

Provincial exams: the average grade on provincial exams including math, science, language arts and humanities.

Post-secondary achievement: is an indicator of the comparative academic success of post-secondary students from Atlantic Canadian high schools in their first year of study at 21 of Atlantic Canada's universities and community colleges.

Academic Engagement

Attendance: the attendance rate of high school students.

Moving-on: Based on the number of students who move from one grade to the next grade. The Grade 12 moving-on rate is calculated by dividing the number of graduating students by the number enrolled at the beginning of the year.

Post-secondary preparation: the proportion of students participating in college preparatory math and language arts courses.

Post-secondary participation: the proportion of students moving on, or intending to move on, to postsecondary education the year after graduation.

Student debt loads are a hot issue across the nation. College of the North Atlantic has implemented a voluntary tuition freeze since 1998 and now has the lowest tuition rates of any public college or university in Atlantic Canada.

As a result of our high quality education, many institutions have signed transfer agreements with College of the North Atlantic, which allow graduates of various programs to receive advanced standing upon entrance to university level studies.

We're so much more.

As a result of our high quality education, many institutions have signed transfer agreements with College of the North Atlantic, which allow graduates of various programs to receive advanced standing upon entrance to university level studies.

We're so much more.

Student debt loads are a hot issue across the nation. College of the North Atlantic has implemented a voluntary tuition freeze since 1998 and now has the lowest tuition rates of any public college or university in Atlantic Canada.

As a result of our high quality education, many institutions have signed transfer agreements with College of the North Atlantic, which allow graduates of various programs to receive advanced standing upon entrance to university level studies.

We're so much more.

Navigating the Report Card

Wondering why your school's absolute score is so good but your contextual grade isn't? Or how an "engagement" grade is actually calculated in the first place?

Contact AIMS to arrange for "how to read the report card" briefing sessions. These sessions can be school, board/district or province specific or they can simply cover the basics of how the report card is developed and what it says about education in Atlantic Canada.

Suite 1302, 2000 Barrington Street, Halifax, Nova Scotia, B3J 3K1 telephone: 902-429-1143 email: aims@aims.ca

Angus McBeath is making a Difference in Public Education.

Thirty years ago a revolution happened in Edmonton Public Schools. That revolution continues today and all public schools can learn from this success. "Saving Your Public Schools" is the title of the speaking tour bringing one of the architects of that revolution direct to schools and school districts across North America.

Invite Angus McBeath, former Superintendent of Edmonton Public, into your back yard and hear from this engaging and informative teacher, principal and parent about just how good public schools can be. One-on-one, in small groups or for large gatherings, Angus never fails to inspire, motivate, and challenge.
