

AIMS 5TH ANNUAL HIGH SCHOOL REPORT CARD (RC5)

New Brunswick Francophone High Schools

AIMS does not assign a final overall grade and rank for any school that does not have a valid score in every compared measure. Last year this meant that several New Brunswick Francophone schools did not receive an overall grade. Fortunately this year, the data gaps have been filled and four schools that did not qualify for a final grade last year return this year. Those schools happen to take the top four spots.

The New Brunswick Francophone system’s historically strong testing regime has been reduced in the past few years, meaning that for the first time in three years we have test results and school-assigned grades for only two of the four subject areas the report card assesses – mathematics and language arts. As in New Brunswick’s Anglophone schools, we are still unable to assess the proportion of graduates intending to move on to post-secondary education. But we maintain a rich set of data for participation in post-secondary preparation courses and grade to grade moving on measures.

The top-ranked school in the New Brunswick Francophone system is École Marie-Gaétane in Kedgwick, which earned the only ‘A+’ in not only this jurisdiction, but in all of Atlantic Canada. École Grande-Rivière in Saint-Léonard ranked second with a ‘B+’ overall. While rankings shifted as a result of the additional ranked schools, grades were quite stable over the past year. Two schools showed improvements worth noting: Centre La Fontaine in Néguac reversed last year’s decline to a ‘C’ and returned to an overall grade of ‘C+’, and Polyvalente Clément-Cormier in Bouctouche also improved from a ‘C’ to ‘C+’.

Several schools experienced a drop of a single grade level, including: École Samuel-de-Champlain from ‘B+’ to ‘B’, Polyvalente Marie-Esther from ‘B’ to ‘C+’, École Mathieu-Martin from a ‘B’ to ‘C+’, and École Régionale de Baie-Sainte-Anne falling to a ‘D’ from a ‘C’. École Régionale de Baie-Sainte-Anne was the only school earning a ‘D’ grade in the New Brunswick Francophone system.

* Grades are based on a three year rolling average. If a school does not have at least two years of data for a particular measure it will not receive a grade for that measure. RC5 is based on data from the school years 2002/03, 2003/04 and 2004/05.

General

- A more detailed breakdown of the results for each ranked high school is published as an insert in the March issue of *Progress* magazine. A copy of this insert can be found online at <http://www.aims.ca/library/rc5insert.pdf>
- A further expanded data set, including the available results for all reported schools, plus expanded sub-measures for ranked schools will soon be made available online to allow for an inter-active cross school comparison on any available measure or a combination of measures. Please watch our website at www.aims.ca or subscribe to our newsletter at <http://www.aims.ca/newsletters.asp?cmPageID=200> for an update when this information becomes available.
- New Brunswick learning centres and private schools are not reported and no partial data is available for them.
