

AIMS 7TH ANNUAL HIGH SCHOOL REPORT CARD (RC7)

Newfoundland and Labrador High Schools

J.M. Olds Collegiate in Twillingate moves up a grade level this year from 'B+' to 'A-' to become the top school in Newfoundland and Labrador. Bay d'Espoir in Milltown keeps its 'B+' grade and moves up one place to second, while last year's top school, Gonzaga High School in St. John's, maintained a 'B+' grade but fell to third overall. Clarenville High School saw the biggest improvement from last year, rising from a 'B-' to a 'B+' this year. No schools saw their overall grade fall by more than one grade level.

Perhaps the biggest story in Newfoundland and Labrador is the low number of schools receiving a final grade. In many cases this is because there are a large number of small schools in the province and to protect the privacy of those students we are unable to receive their results from university and community college. This includes two private schools, St. Bonaventure's College in St. John's and Eric G. Lambert All Grade in Churchill Falls. Both volunteered all the data their schools were missing from the province's publicly available information, but did not receive a final grade because we could not collect the data from at least two post-secondary institutions with results for at least five students.

Grades are based on a three year rolling average. If a school does not have at least two years of data for a particular measure it will not receive a grade for that measure. RC7 is based on data from the school years 2004/05, 2005/06, and 2006/07. In instances where three years of data is not available for an entire province, at least two years must be available and schools must have data from at least one of the two years. In Newfoundland and Labrador this applies to:

1. Attendance rates were not available for the 2006-2007 school year. Grades for the Attendance rate measure are based on the 2004-2005 and 2005-2006 school years.

No data is available for the Newfoundland School for the Deaf, the St. John's Hospital School, and the Newfoundland and Labrador Youth Centre so they are not included in reported schools.

* Grades are based on a three year rolling average. If a school does not have at least two years of data for a particular measure it will not receive a grade for that measure. RC7 is based on data from the school years 2004/05, 2005/06, and 2006/07.
